ONE OF 330 POLK DIRECTORY LIBRARIES

This Little Library Can Answer 945,000,000 Questions

MANY TRIPS AT YOUR FINGER-TIPS —
SAVE MANY MILES, MINUTES and DOLLARS

There are over 480 of these directory libraries in the United States. They are installed and maintained by the Association of North American Directory Publishers as part of the service given to directory advertisers.

Think what this means to you in effort, time and money saved. You want to know the relationship of the signer of a letter to the firm he represents—the directory library has the answer; someone you vitally need to get in touch with in a distant city has moved; business addresses or firm names have changed—the directory library has the answer. Public officials have been replaced by new elections; location of real estate is desired—again the directory library holds the answer.

Of course you could write or phone for the data you desire, but maybe you don't know just who to approach—the directory library has the answer.

This service is free, for single reference, to the public.

INTRODUCTION

R. L. POLK & CO., publishers of the Bay City Directory, as well as more than 700 other city, county, state and national directories, present to subscribers and the general public, this, the 1931 edition of the Bay City Directory, which also includes Essexville.

Confidence in the growth of Bay City's industry, population and wealth, and in the advancement of its civic and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Bay City to the world.

The enviable position occupied by R. L. POLK & CO.'S directories in the estimation of the public throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Bay City Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The several essential departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 11 to 20, presents a variety of information, such as lists of city, county, township and federal officials; statistical review; historical sketch; manufacturing, trade and civic surveys, etc.

THE BUYERS' GUIDE, pages 21 to 60, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Bay City and vicinity. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers eager to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like Bay City, the necessity of having this kind of information immediately available, is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations is included in pages 61 to 372. A feature of this section is the inclusion of the wife's name in parentheses following that of the husband.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 373 to 468. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. A feature of this section is the distinction between tenant-owned and rented homes.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 469 to 521. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educa-

tional center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Bay City and vicinity, for business men, everywhere, realize that the city directory represents a community as it really is.

The Bay City Directory Library

Through the courtesy of the publishers of the Bay City Directory, a Directory Library is maintained in the offices of the Bay City Chamber of Commerce, for free reference by the general public. This is one of 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

General Survey

What diversified crops are to the farm, in a large way, are diversified industries to a city, and this is one of the incontrovertible claims of Bay City. It is a city of diversified industries. There is perhaps no city of its size in the United States of which this may be said with such fitness. It has 120 different enterprises that run the gamut of industrial activities. These range from harness factories to the manufacture of automobile bodies, auto parts and tubes; from cement to ready-cut houses; from the whisk broom, which the Pullman porter wields so deftly, to the ponderous cranes that bit out the Panama Canal; from sweaters and caps to theatrical scenery and stage settings; from mattresses to soft coal; from sauer kraut to steel ships; from iron and brass foundry products to reed and wicker furniture. In fact, the contrasts could be extended on for a considerable space.

Originally the camping ground of the Chippewa Indians, Bay City's recorded history reverts to about the year 1836, when it was known as Lower Saginaw. In July, 1839, Stephen Wolverton arrived with a commission to build a lighthouse at the mouth of the Saginaw River, and in that year Capt. Ben J. Pierce, who arrived on the schooner Wave during the week when the government was making the payments to the Indians, set the first store. Business expansion dates from that day.

The valuable pine forests adjacent to the Saginaw River attracted the interest of capitalists in the early Forties and this led to the building of an experimental sawmill at what is now the foot of Sixth Street. Others followed and Bay City became second to none as a lumber manufacturing

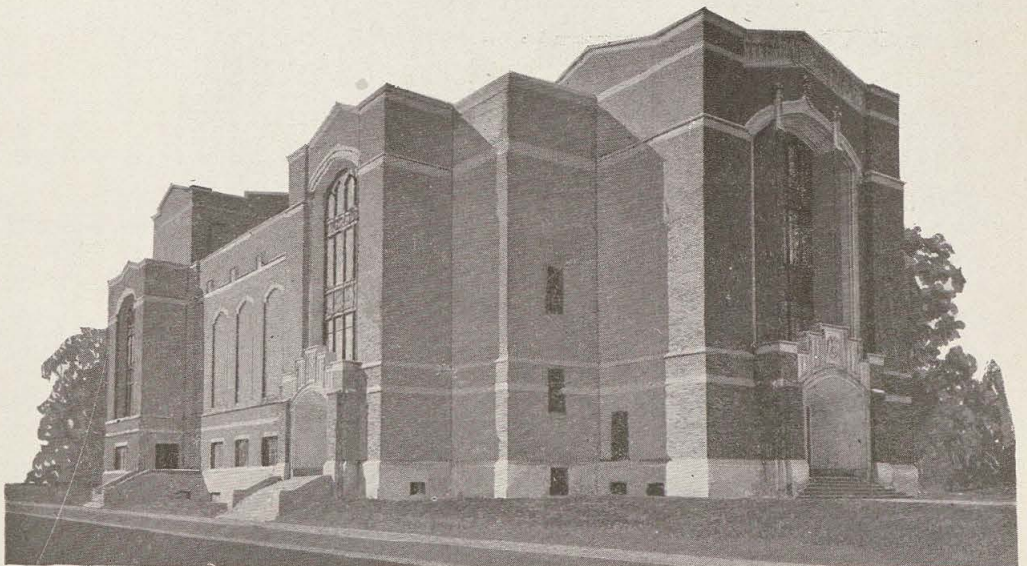

FEDERAL BUILDING

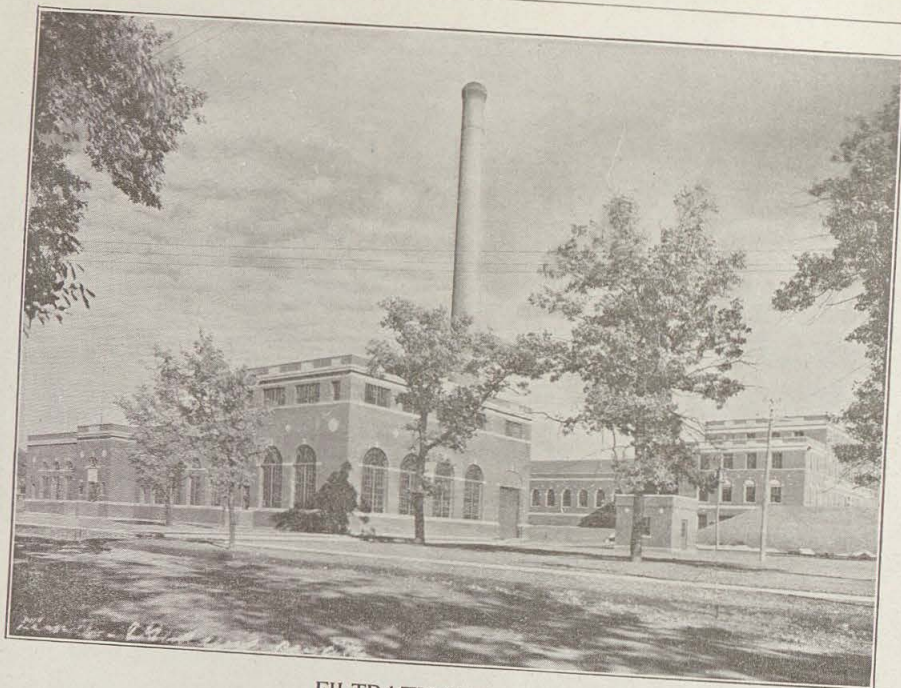

center. In 1850 the inexhaustible salt basin which underlies the section was tapped, and this, too, developed as the lumber business had done. These two great industries brought about a rapid growth in wealth, importance and population. Coal was next discovered about 1895 in Monitor Township, and a shaft was sunk. A dozen mines are in operation today within a short radius of the center of the city.

The advent of 1925 saw Bay City's \$2,000,000 filtration plant in operation, the "last word" in municipal water systems, and an unlimited supply of the purest and softest water it is possible to secure anywhere is now sent into Bay City homes and industries.

Moving ahead to make itself an ideal city, recent expenditures of over \$2,200,000 has been put into the Junior College and Central High School, the new Handy Junior High School and the rebuilt Eastern Junior High

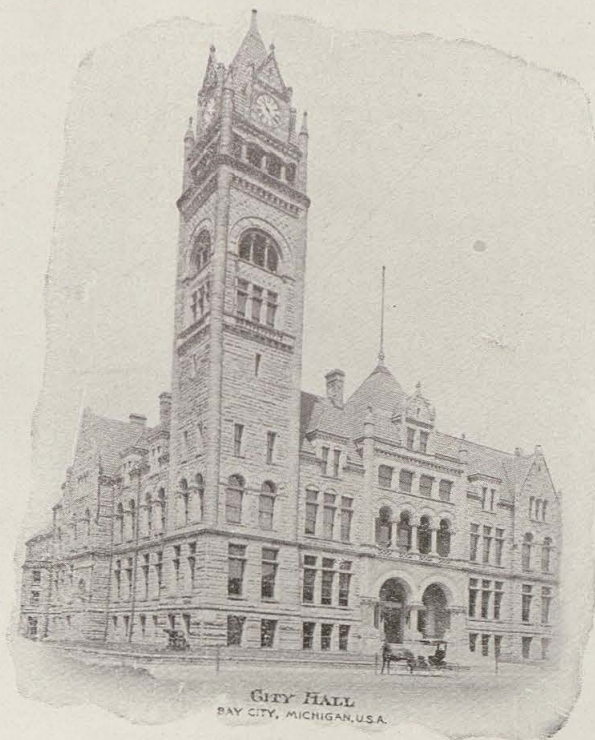

SCOTTISH RITE CATHEDRAL

FILTRATION PLANT

School. Sanctioned by the vote of the people, these expenditures illustrate the character of the folks who live here and their abiding faith in the future, 89 per cent of the 60,000 inhabitants owning their own homes.

The purchase of 200 acres of land along the river by the Standard Oil Company and its erection of tanks and buildings to make Bay City its eastern Michigan distribution headquarters, shows that outside captains of industry appreciate its advantages. So also does the plan of the Aetna Portland Cement Company for four units such as the two 1300-barrel-a-day plants now operating, using the ships to bring in their raw materials, and the four systems of railroads which radiate in all directions, to carry their product to market.

CITY HALL
BAY CITY, MICHIGAN, U.S.A.

Saginaw Bay fisheries yield over 9,000,000 pounds of fish each year. Over 250,000,000 pounds of sugar are produced here annually. Several million tons of excellent coal are mined and millions of feet of all kinds of lumber manufactured, as well as nationally-known cranes, dredges and construction equipment.

Developing by terrific jumps is that business created by thousands of tourists seeking rest and recreation in the virgin forests and fish-bearing streams of northeastern Michigan. Through Bay City, the gateway, they sweep in hordes from the sunny Southland, from as far west as Oregon, and as far east as Maine, in search of that which they cannot find at home in the summer time—a climate unequalled and a people whose hospitality is so well known that it has become an important asset.

Bay City has twelve urban parks and one state park, with a total of 113 acres. Over \$250,000 has been expended on Wenonah Park, in the central business district. Local banks have combined total resources of \$35,000,000. Banking figures show Bay City leading the state in per capita savings and Christmas savings funds. Because of the home-owning disposition of the people, labor turnover is a manufacturing worry that is eliminated.

Nature herself supplies Bay City with recreation, for the bays and lakes, the trout streams and the woods, the hills and camps of all descriptions are within easy access of every resident. Church and club life, supported by the city's advanced school facilities, round out an educational and moral atmosphere.

The Chamber of Commerce is composed of mature men whose vision in the past has made Bay City what it is, and the younger men whose later vision will make the new Bay City. This organization points with pride and pleasure to the miles of dockage, the redredged harbor and industrial sites, many of them having docks and rails and every available transport facility, as well as to the unlimited supply of coal mined in Bay County, cheap hydro power and cheap water transportation, and to the health of the community and its desirability as a home city.

Bay City is proud of its past, equally proud of its present and absolutely sure of its future. It accords a cordial and sincere welcome to other guests.

LET US MULTIGRAPH IT—

A weekly bulletin to your sales force—multigraphed, of course—is an ideal and inexpensive way to keep every man happy and “hitting the ball.” Letters, sales service and factory forms—in fact anything you wish duplicated in quantities—given the kind of attention which brings you back again and again.

LIST OF NAMES**Any Business — Any Locality
Accurate and Up-to-the-minute**

WE publish over 700 Directories—City, County, State, National and Trade. We furnish real live up-to-date lists of all trades and professions.

As directory publishers we frequently have available for lists the manuscript copy from which directories are being compiled, and thus you may secure information in advance of publication, a service that cannot be had elsewhere.

We have no trade lists—our information is taken from the latest sources, and above all things, is accurate.

How to Use This Directory

To get the
most good
from this
Directory
know what it
contains and
how to
use it.

You cannot
get this
knowledge
by glancing
hastily
through
the book,
and assuming
that your
mind grasps
a full idea of
its contents
from the
name.

POLK'S BAY CITY

Directory of Householders, Occupants of Office Buildings
and Other Business Places, Including a Complete
Street and Avenue Guide

1931

Including Essexville

Copyright, 1930, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(ES) denotes East Side, (WS) West Side
